Website Project Proposal: Michelle's Nail Bar

Target Organization: Michelle Nail Bar (Nail Tech Business)

1. Organisation Overview

- **Name:** Michelle's Nail Bar
- **Description:** Michelle's Nail Bar is an independent nail tech business focusing on modern nail artistry

- BRIEF HISTORY

Michelle's Nail Bar was founded by Michelle as an independent nail tech business dedicated to modern beauty and creative nail styles. The brand was established to fill a gap in the market for unique, high-quality nail artistry that serves as a place to express your feelings through nails and colors.

-
- **Goal:** The goal is to create unique, high-quality nail designs that represent modern beauty culture and help people to love themselves through their nails.
- **Current Presence:** The business currently promotes services mainly through social media platforms to share designs and creative visuals.
- **Mission Statement:** To create stylish and creative nail art that represents individuality, artistic expression, and feelings.
- **Vision Statement:** To grow into a recognised nail tech business that connects beauty, feelings, expressions, and creativity while reaching a wider local and international client base.
- **Target Audience:**
-
    - Individuals aged 14–65
    - Those interested in professional nail artistry and streetwear-influenced aesthetics
    - Customers looking for unique and creative personal grooming services

2. Website Goals and Objectives

- **Main Goal:** To create a professional online platform that showcases the Phuluso Nails On brand and its nail services.
- **Objectives:**
    - Promoting Michelle's Nail Bar nail services and brand identity
    - Allowing customers to view a gallery of available designs and sets
    - Providing information about the technician

    - Allowing customers to enquire about appointments or custom sets
- **Key Performance Indicators (KPIs):** Success will be measured through online reviews and ratings.

3. Current Website Analysis

- **Current Status:** Michelle's Nail Bar does not currently have an official website and relies on social media for promotion and communication.
- **Strengths:** Strong creativity and existing loyal customers.

- **Weaknesses:** No dedicated site for customers, limited ability to organise service/portfolio information.
- **Areas for Improvement:** A website will provide a professional online presence and better presentation of nail portfolios.

4. Proposed Website Features and Functionality

- The website will include the following pages:
- **Homepage (index.html):** A landing page introducing Phuluso with a hero image and navigation menu.
- **About Page (about.html):** Information about the technician's story, mission, and vision.

- **Portfolio/Services Page (services.html):** A display of nail sets, including gel, acrylic, and custom nail art.
- **Enquiry Page (enquiry.html):** A form for customers to enquire about bookings or custom designs.
- **Contact Page (contact.html):** Contact information and social media links.

5. Design and User Experience

- **Colour Scheme:** A palette of Black, pink, blue, Red, and White will be used to represent a bold and modern aesthetic.
- **Typography:** Headings will use bold modern fonts; body text will use readable fonts such as Arial.
- **Layout:** A modern and minimal layout with strong visual images of nail work.
- **User Experience:** Focused on easy navigation, clear presentation of the portfolio, and fast loading pages.

6. Technical Requirements

- **Development:** The website will be developed using HTML to demonstrate core web development principles.
- **Infrastructure:** Requires a domain name (e.g., Michellesnails.co.za) and web hosting services.

7. Timelines and Milestones

- **Week 1:** Project proposal and planning
- **Week 2:** Content research and portfolio image preparation
- **Week 3:** Sitemap and website structure planning
- **Week 4:** HTML development of pages
- **Week 5:** Testing and improvements

8. Budget

- **Domain registration:** R150 per year
- **Web hosting:** R1200 per year
- **Website development:** R5000 (once-off)
- **Maintenance:** R1000 per year
- **Estimated Total:** R7350
